

Welcome and congratulations for becoming a part of the QuantumLeap Legacy (QLL) Program. This program will guide you to create a powerful, game changing high ticket offer, increase your income, your confidence, your status, influence and impact while giving you the ability to scale, simplify your life, and take your message and build a movement so you can focus on living, philanthropy and lifestyle.

QuantumLeap Legacy (QLL) Key Data:

Access:

All access is done via a centralized communication and delivery channel called [Pumble](#). You will receive an invitation to join this, and then you will schedule an onboarding call to understand your next steps, and understand where key information resides.

Onboarding:

This is a key first step before you start to attend the live training calls so that you can get started on the important pre-training (lessons 1 - 5) which will give you an overview of the entire process/journey.

These are located under the channel [00-a-start-here](#)

Then we will start at the absolute first step for you, and every week continue to move you forward toward your Legacy Life.

QuantumLeapLegacy.com

In addition you will receive your personal onboarding checklist so you follow those steps, and know when you have completed key elements to getting started.

Time:

If you already have a fully functioning business, and this is something you are adding or want to migrate your model to, then this program is designed to take about 4 hours per week if you want to launch your HTO and have it validated in 90 days. However, it's your program, your pace and if you can go faster, we can keep up!

The program contains 3 core elements

- > **Master Trainings**
- > **2 Weekly Coaching Calls**
- > **Support and communication within a centralized program called Pumble**

Master Trainings:

When we refer to master trainings - we are addressing the 5 steps to launch.

- > Align your message - create your movement - identify your right fit client
- > Blueprint your High Ticket Offer - framework for your \$100k offer
- > Validate your High Ticket Offer - get people to say yes before it's built
- > Filling your Founders Circle - Selling 3 members to launch
- > Program delivery - starting your program and seeking new members

Because this is a 2 year program, there are trainings covering almost every topic within the Message to Millions system, Reach Millions Academy and

The Science of Social Media - which are all included in this. (\$37,000 value). It is recommended you don't access these however, until you have done the above, because they aren't needed. We are back to basics and keeping it simple until you launch.

2 Weekly Coaching Calls

Master QLL Call with Tracy

Every Friday at 10am EST is the live mentor and coaching call. Register in Pumble under the [00-start-here channel](#). Register once and you will have a personal link to attend every week.

This is where you can rapidly accelerate your results, if you bring your assignments. I can work magic in minutes, I just need something to start with.

So take advantage of these calls and get your results faster and easier. And to let you know, call times, and dates may vary - but we are trying to keep it consistent. Under [00-Announcements](#) Channel you will see a **monthly calendar** with links to all the calls.

Ask Me Anything Coaching Call with Dave

Here is how the program works:

This is like a partnership in that if you don't succeed, we don't succeed, so it's in everyone's best interest to stay in communication, focused, and ready with each week's action plan completed.

1. You watch a training video, download any materials/templates that will help you framework, and fill it out and bring to the coaching call.
2. Every week you should complete at least one of the tasks.
3. The Friday coaching calls are considered mandatory. If you can't attend them, make sure you have the work posted for review in the appropriate Pumble channel. ie. Align Your Message. AND let us know in your Pumble channel.
4. Each week we will meet, review, assign, assess, share in your wins, celebrate your success, debug any problems, and help you to create a scalable, profitable legacy life business you love filled with purpose, philanthropy and passion.

Here is how to be successful in any program:

So here is what I know after being in business for 40 years

1. **You can't do it alone** - being a solopreneur in order to survive takes building a team and constantly getting educated on what you need to do for your business to grow.
2. **Coaching** programs are a great way to be held accountable, stay connected to a like minded group of people, and be forced to work on your business - otherwise you will remain so entrenched in day to day operations your business will feel like a hamster wheel where you are constantly working hard and never getting anywhere.
3. **How you show up for one thing is how you show up for everything** - so stay dedicated and focused on your income, your business, and your clients - because life will throw crap at you everyday, vampire suckers, dream stealers and wet blankets will try to smother and derail you. And avoid the 'bright shiny objects' they are there to distract you.
4. **What you don't know - you don't know - and what you don't know can bankrupt you.** For 40 years I have seen major companies, far bigger than me, fall. Here is why I believe I survive - I am always looking forward at the market, always seeing if there is another gap I can fill within my area of expertise, and always staying focused on what really matters - getting cash and clients in the door to serve.

It's a harsh reality when you have a purpose and a message and a product or service that can change the world - and all you want to do is get it out there and get it known.

The reality is - that takes time, effort, and money for you, your business, and any philanthropic endeavors you have as part of your vision. So let's **get you wealthy, strong, and working your business smart.**

How to Get the Most From This Program:

You've made the investment, and believe it or not, that is the easy part.

Showing up and working on your business and staying focused on a main goal is the hard part, because the day to day operations will never go away and will always be screaming at the top of their lungs for your attention.

1. **Follow the instructions on the checklists**

We have tried to incorporate as many as we can so you can move through the system with ease.

A key to the success of this system is get each step done as fast as possible. When you complete one step, it is plugged into the next section like a building block.

When a business reaches a plateau or is not making the money you desire, or have the impact you were expecting, 2 main conditions usually apply;

a. There is a weakness in the lower part of your foundation.

For example if you have everything built, it looks awesome and you still aren't making money, perhaps the problem lies in the definition of the right fit client or clarity of your message. This is back to what you don't know, you don't know.

b. There is a gap in your knowledge, understanding and/or application of something fundamental to your growth. When you discover it though, a light will go on, and your energy, enthusiasm and drive to move forward, work harder and accomplish your goal will activate.

And this will happen to you many times over the course of the year as you move through the wheel and your score goes higher and higher. Each time you go through a training, attend a coaching call, you will discover a gem in there that will recoup, recover, or make you go faster.

2. Stay Connected and in Communication

You have the privilege of being invited to join my ReachMillions private community. These are clients that have invested to get access to me in our community. Request to join.

<http://InnerCircleAccess.com> (FB group)

It is here you will engage and interact with stellar people, and communicate daily with them, I opened this up to you as well.

Your REALLY private community though is your **Pumble Channel**. All of the people here are playing a BIGGER GAME. Meet with each of them, schedule a call, find out what they do. You never know who has your client!!

I go to Pumble EVERY day - I reply ASAP. If it's an easy answer I will reply quick, but if it's strategy or takes time, bring that to your QLL calls. This is where we do ALL our communication - so it doesn't get lost or forgotten.

So ask questions, connect to the members, like, comment and visit **DAILY**.

Do not drop out of sight because you get stuck, lost, overwhelmed, frustrated, stressed out or distracted. Get in TOUCH. Attend a Thursday and/or Friday call - and get the resolution you are looking for. It will be here.

If health, family, or other unforeseen issues arise, let us know so we know you are dealing with something that must be handled. But don't forget to come back. We can start off right where you left. You will not be left behind.

3. Plan to Attend one of my Live Trainings

You have 2 tickets included with your package to any of my virtual training events. 1 for you and 1 for a friend or team member.

Dates will be announced and you'll be invited. We sometimes ask for a \$1 commitment, that is just to ensure we are fully tracking registrations and you are receiving all communications connected to the event.

If you can't make this date, your ticket doesn't expire, it can be saved for a future event, or gifted/transferred.

The best part is when you register - after the event you will receive the video recordings and PDF version of my presentations and any training supplements. This is called a **VIP ticket** - so don't buy it when offered :)

This year will be what you make it so let's design the outcome and go for it.

ChatGPT Technology

ChatGPT is a brand new exciting technology - and it will revolutionize and change everything in business for the better. As a result of this many ChatGPT guides have been created to simplify steps, assist in research and take a lot of busy work off your plate. Again though, in the beginning we only need small amounts. It is when you reach the Message to Millions stage that you will need all the ChatGPT guides.

I recommend you install an extension to Chrome to 100x the power of your ChatGPT. **Step-by-step videos are in the Pumble [TEMPLATES channel](#).**

My ACTion Elements for the Month

When you go through trainings, attend seminars, you will be gaining A LOT of knowledge. This ACT process allows you to prioritize large amounts of data into applicable categories based on their urgency.

A - Stands for ACT - these are things you need to ACT on right now

C - Stands for Check it Out - these are things you need to CHECK OUT and investigate to see if it fits in your model, costs etc

T - Stands for Tag - that means tag that for later - you don't need it right now but it may be important to you later

When you do this you'll know what your priorities are and have a convenient list of things to continue the forward momentum you will need both short term and long term with the C and T options.

Enjoy the journey - and if you encounter an obstacle, make sure attend the weekly calls.

Here's to your continued success
